

Ukraine War Response

Refugee Assistance

Situation:

- Russian Aggression creates 4 million refugees, mostly women.
- Humanitarian groups mobilize.

My involvement:

- Supported fleeing Ukraine mother and daughter, meeting her in person in Poland to deliver supplies and clothing.
- Helped support 9 displaced women and children living in a convent.
- Traveled to Ukraine border to work with World Central Kitchen.
- Continue to support women refugees today.
- Supported giving portable stoves to Ukraine's without power.
- Gave women suffering from the war "A vacation from the war."
- When home in US, spoke to groups about the state of women in Ukraine.
- Held a world-wide vigil when my interpreter was killed in Israel.
- Support for Anna continues today.

Women's Crisis

A wave of displaced women and children into Poland is forcing the country to address its lack of protections for working women.
